

BHARATH KRISHNAN S

bharathkrishnans.cse2023@citchennai.net · +91 8754716433 · github.com/sbharathkrishnan28 · bharathkrishnan.dev · linkedin.com/in/sbharathkrishnan

Professional Summary

CSE undergraduate specializing in Full-Stack Development, with hands-on experience building, deploying, and scaling production-grade web platforms using FastAPI, Flask, React, and REST APIs, with secure authentication and real-time data systems.

Education

Bachelor of Engineering in Computer Science and Engineering (B.E. CSE) 2023 – 2027
Chennai Institute of Technology and Applied Research, Chennai CGPA: 9.05 / 10

Work Experience

Machine Learning Intern — Saiket Systems (Remote) Mar – Apr 2026

- Engineered Machine Learning models (Scikit-learn, TensorFlow) for classification/regression with hyperparameter tuning and accuracy, F1-score model evaluation.
- Performed EDA, data preprocessing, and feature engineering to improve model performance.

Front-End Developer Intern — SSV's Traders (Hybrid) May 2024

- Built responsive UI (HTML, CSS, JS), improving compatibility by 30% in a 4-member Agile team.
- Integrated REST APIs for dynamic data exchange, reducing data-fetch latency by 20%.

Data Science Intern — Cognifyz Technologies (Remote) Mar – Apr 2026

- Applied Machine Learning and statistical analysis to real-world datasets using Python and Scikit-learn.
- Strengthened model development, data preprocessing, and analytical problem solving.

Projects

LexiScan Auto – AI Contract Intelligence Platform 2026

FastAPI · React · spaCy · SQLite · JWT

- Built a full-stack platform (FastAPI + React 19/Vite) with JWT auth (PyJWT, bcrypt) and per-user CRUD over SQLite.
- Integrated an offline spaCy NER + scikit-learn pipeline with PII redaction and a glassmorphism analytics dashboard.

VillageAPI – India Village Data SaaS Platform 2026

Flask · SQLite · SSE · JavaScript · REST

- Built a production REST SaaS serving 564k+ records with sub-100ms search and modular Flask Blueprint architecture.
- Implemented token-bucket rate limiting, Server-Sent Events notifications, and API-key auth with rotation.

RailMind AI – Railway Safety Dashboard Platform 2026

FastAPI · React · WebSockets · SQLAlchemy

- Built a monitoring platform (FastAPI + React 19, TanStack, Tailwind) with real-time WebSocket alert streaming.
- Engineered SQLAlchemy/PostgreSQL models, SSE notifications, and Twilio SMS escalation across a live dashboard.

RetireRight – Gamified FinTech Web App 2026

JavaScript · Chart.js · HTML5 · CSS

- Built a responsive single-page FinTech app with a compound-interest engine and Chart.js visualizations.
- Designed an XP/levels/badges gamification system and behavioural-nudge engine; hackathon finalist submission.

Technical Skills

- Programming Languages:** JavaScript, Python, Java, C, SQL
- Frontend:** React.js (React 19), Vite, TanStack Router & Query, Tailwind CSS, HTML5, CSS3, Chart.js, Responsive & Glassmorphism UI
- Backend:** FastAPI, Flask (Blueprints), Node.js, Express.js, REST APIs, WebSockets, Server-Sent Events (SSE), JWT Authentication (PyJWT, bcrypt), Rate Limiting
- Databases & ORM:** PostgreSQL, MySQL, SQLite, MongoDB, SQLAlchemy
- DevOps & Tools:** Docker, Git, GitHub, Vercel, Render, Postman, VS Code, Agile / Scrum
- AI / ML Integration:** Scikit-learn, TensorFlow, spaCy (NER), Computer Vision, OpenCV, NLP, Model-Serving APIs
- Areas of Interest:** Full-Stack Development, Cloud Deployment, Scalable APIs, System Design

Competitive Programming

LeetCode: Rating 1600, Problems Solved 450+ sbharathkrishnan

CodeChef: Rating 1224, Problems Solved 200+ sbkrishnan27

Codeforces: Rating 1030, Problems Solved 50+ sbharathkrishnansbk

Achievements & Activities

- TCS CodeVita Season 12 & 13** – Achieved Global Rank **6599 & 5107** worldwide.
- National Hackathon Finalist** – Shortlisted among top teams at HackOrbit and the **NIT Trichy** FinTech Hackathon.
- NPTEL Elite Certification** – Ethical Hacking by IIT Kharagpur with a 73% score.
- Secured **1st** place in the **ML Ware Hackathon Championship** conducted by **IIT Varanasi** on Kaggle.

Certifications & Coursework

- AWS :** Cloud Practitioner – Generative AI Foundations – ML Foundations
- IBM :** AI Essentials – Web Development Essentials
- Cisco :** Intro to Networks – Cybersecurity Essentials – Data Analytics Essentials
- NPTEL (IIT Kharagpur):** Ethical Hacking – Elite Certification
- Coursera :** DSA – Python for Data Science – Google Cybersecurity
